

VITAL STATISTICS

**STATE OF
MISSOURI**

1949

JEFFERSON CITY, MISSOURI

The Department of Public Health and Welfare of Missouri

DIVISION OF HEALTH

Bureau of Vital Statistics

From 1912 to 1948, the Vital Statistics tables were a part of the reports of the State Board of Health, later the Division of Health, State Department of Public Health and Welfare. Beginning with the publication of the biennial report covering 1949 and 1950, the tables were omitted for economy.

After a long delay the tables for 1949 have been reproduced. This was done by preparing them piecemeal over a two-year period. In order to prevent the repetition of the unfortunate occurrence in 1935 and 1936 when no vital statistics reports were published, it was decided in 1952 to reproduce the tables for 1949, even though several radical changes would have to be made.

A new feature is the inclusion for the first time of several tables on marriage and divorce. Nineteen hundred forty-nine (1949) was the first full year of the operation of the law providing for reporting such data to the Division of Health. Although the law is inadequate to insure compulsory reporting, the response of the 154 circuit clerks and recorders has still been sufficient to insure reliable data in nearly all the categories tabulated.

March 1954
